Exhibitor Package

2019 Girls' STEM Leadership Conference Theme

As the oceans fill with plastics and extreme weather events threaten our communities, the time for action is now. **Sustaining Our Future** is a leadership conference bringing to light how our innovative solutions and small contributions can add up to effective and much needed change. Exploring the unique stories of leaders from across all disciplines through engaging hands-on workshops and keynote presentations, conference participants will be inspired to take action and shape the world around them. We are part of the Earth and the Earth is in all of us.

Exhibitors

The Exhibit Hall at **Sustaining Our Future** is the perfect place to showcase your organization to Middle and High School students who show an interest in leadership and STEM fields. The Exhibit Hall is a venue to raise student awareness and engage students in opportunities with your organization, and it will be open to students from 9:45 am - 4:00 pm on Friday, April 26. The use of the Exhibit Hall for sales or profit is not permitted.

- Each booth is approximately 210cm x 75cm and includes a table, chairs, WiFi and power
- Booth set-up between 3:00 pm – 5:00 pm on Thursday, April 25 OR 8:00 am - 9:45am on Friday, April 26
- Option to contribute items to student SWAG bags (materials must be dropped off to the school by Friday, April 5)
- Exhibitor fee is $20 per organization (please note that we can accommodate a maximum of 3 representatives per exhibit booth)

Apply at bit.ly/stemcon2019_exhibitor
Exhibitor applications will be accepted until **4:00pm PDT on February 14, 2019**

Exhibitor Benefits

At this conference, you will become immersed in the potential of youth. Conferences such as this have the power to inspire girls to explore new opportunities, find their passion and set their sights high. Exhibitors have the ability to influence and motivate the conference participants. Lunch and snacks will be provided.

Who We Are

St. Margaret's School is an independent, day and boarding school for girls located in Victoria, BC. Established in 1908, SMS is an international centre for STEM (Science, Technology, Engineering and Mathematics) learning and girls' leadership development, providing empowering education from junior kindergarten to grade 12 (Boarding: Grades 7-12).
